

Children form healthy eating habits in their early childhood years. The lessons they learn in childhood may last a **lifetime**.

Good

EATING HABITS do not just happen – they must be learned.

Presenting children with a variety of nutritious foods can help them learn to make nutritionally sound food choices.

All child care providers can support positive eating habits by introducing children to new foods, encouraging favorable attitudes toward food and encouraging children to eat a variety of foods.

TRAINING REQUIREMENTS

Providers must attend food program training every year. Your sponsor will help you decide which training you will need in order to be on the program and help you keep your training current.

Meals and REIMBURSEMENT

To qualify for the FDCH program, family day care homes must be state licensed, residential certified or qualify for relative care.

For More INFORMATION

Contact any of the sponsoring organizations on the other side of this handout for more information. A family Day Care Home provider can choose any of the sponsors, but once they sign an agreement with a sponsor, they cannot transfer to a different sponsor before the annual renewal date of their agreement and must complete a request for transfer.

Family Day Care
Home providers can be reimbursed for a maximum of two meals and one snack or two snacks and one meal for each child each day. The provider submits a monthly claim to their sponsor for the meals they have served and receives a check for the meals from their sponsor.
